

Why Cutera?

Cutera is a leading provider of laser, light and energy-based technology. Headquartered in the San Francisco Bay Area since 1998, Cutera is publicly traded on the NASDAQ with an excellent reputation for best-in-class customer service.

- Powerful aesthetic systems to meet your practice needs
- World class engineering from the pioneers of CO₂, Nd:YAG and YSGG laser technology
- Safe, effective and easy-to-use
- High return-on-investment
- Outstanding clinical training and service support

“The Xeo has all the laser and light devices we need on one system. Whether it is skin improvement or vascular issues, I can precisely select and control the parameters and customize each treatment. We can also easily upgrade for an incremental cost when new technology becomes available.”

— Maritza Perez, MD, Dermatologist, New York, NY

“The Cutera Excel V Laser has fit beautifully in my practice. As a practicing dermatologist, I pride myself on buying equipment that is state of the art, makes business sense for me and that gives my patients a high level of efficacy and safety.”

— Mary Lupo, MD, Dermatologist, New Orleans, LA

“The Cutera truSculpt system delivers the hard to achieve combination of deep heating, patient comfort and control – all in one easy-to-use device. TruSculpt uses breakthrough RF technology to non-invasively heat subcutaneous tissue anywhere on the body.”

— Barry DiBernardo, MD, medical director of New Jersey Plastic Surgery, Montclair, NJ

Engineered and manufactured in Brisbane, CA, USA
