

Microdrops™

Eye drops for dry eyes

Made in Sweden

Micro drops are eyedrops designed to moisten, protect and lubricate dry and irritated eyes.

Dry and irritated eyes are common symptoms in the modern way of life. The discomfort can be caused by various reasons such as; extensive work with computers, extreme environmental conditions, side effects of medication and use of contact lenses. Micro drops work as a clear, soft and protective shield for the cornea.

MICRO DROPS FACTS

- Contains 0.2 % sodium hyaluronate of biological source with high molecular weight.
- Viscoelastic behaviour with high pseudoplasticity - adapts to blinking and installs the drop rapidly.
- Offers maximum long lasting coating of the cornea.
- No preservatives - only natural ingredients.
- Each pipette contains 0.4 ml and can be re-sealed and re-used within 12 hours.
- Compatible with all soft contact lenses.

TECHNICAL DATA

Sodium hyaluronate	0.2 %
pH	6.8 -7.6
Shelf Life	2 years
Storage	2°C - 25°C
Dose volume [ml]	0.4
Box (units)	15

FORMULA [ml]

Sodium hyaluronate	2.0 mg
Sodium chloride	8.3 mg
Disodium phosphate dihydrate	1.4 mg
Potassium dihydrogen phosphate	0.26 mg
Water for injection	q.s
